TXM-15

Manual Tortilla Press

Shown with optional Xylan® non-stick coating

The efficient, economical, and durable TXM-15 is the 15 inch manual tortilla press with a swing away design for easy placement and removal of up to four tortillas. Works for either flour or corn tortillas, pizza dough and flat breads. Upper and lower platens heat to 450°F.

Discover the easy way to get fresh tortillas with consistent results in seconds.

FEATURES INCLUDE:

- The 15"x15" dual heated platens can press, flatten, or par bake 2-4 tortillas in seconds.
- The heated platens help the dough flatten faster and easier, and they can also be used without heat for cold pressing.
- Optional non-stick coated upper and lower platens.
- The top platen swings away for easy loading and unloading of dough.
- The heat indicating light will turn off when the set temperature is reached.
- Full range dough thickness adjustment.
- Easy to use open and close handle.
- Flattens tortillas into all sizes up to 15" in diameter.
- Appliance white exterior.
- ETL & ETL Sanitation listed under same criteria as NSF.
