

Display Hold Cabinet

Model No: DHC-24

The first and only rounded display for the ultimate product merchandising

Standard Features

- 180° curved glass front
- Large back lit merchandiser
- Temperature range 140°-175° F
- Temperature display for accurate control of the cabinet temperature
- Rotating 4-shelf pizza rack
- Heavy duty aluminum construction
- Sandwich and pretzel cabinets available

Description

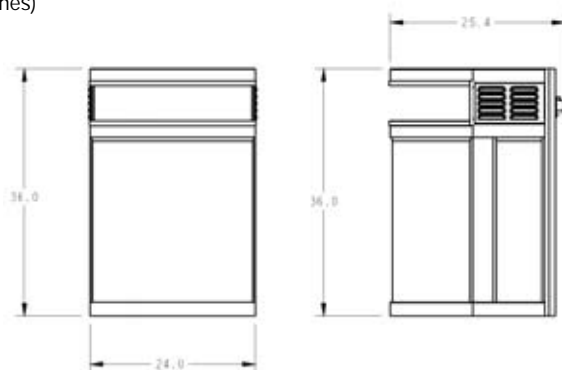

The first and only rounded display for the ultimate product merchandising, the Merco Savory Display Hold Cabinet is also the perfect solution for optimal pizza holding. Its innovative heating system consistently provides gentle heat evenly throughout the cabinet, while its rotating 4-shelf pizza rack and backlit graphic are designed to create impulse sales. Optional items include racks and signage for pretzels and sandwiches, humidity, and a front door for self-serve applications.
