

Specifications

No Pre-Heating:

Heats up instantly. Saves time and energy. No stand by energy cost.

Outside Dimensions:

Wide (incl. Control Unit) 17 Inches

Deep 13.5 Inches

High 13 Inches

Size Pizzas:

Redi-Kwick cooks pizzas up to 12 inches.

Weight:

25 Lbs

Cooking Space:

Wide 12.5 Inches

Deep 12.5 Inches

Installation:

Counter top - Just plug it in

Design:

No moving parts (no wear and tear)

Ventilation:

No external ventilation or flu required. Thermo turbulence without a fan (that can break).

Operating oven temperature:

400 - 500 degrees F

Heating elements:

Top and bottom elements independently controlled for maximum flexibility and optimum cooking.

Heating method:

Radiant infrared heat.

Heating element life:

Minimum 10,000 hours (no measurable wear and tear)

Power Requirements:

120 volt, 25 amps

Controls:

Independent controls for top and bottom elements.
Analogue - easy-to-learn - easy-to-use

Cleaning:

Easy-to-clean (empty the crumb tray)
