

IL FORNO CLASSICO

**BRICK
LINING NOW
STANDARD!**

Model FC-616

SPECIFICATIONS

The BAKERS PRIDE IL Forno Classico combines the ambiance of a traditional old world brick oven with the convenience, control and precision of modern technology, and is perfect for display kitchens and exhibition cooking.

The IL Forno Classico features a steel-reinforced, arched open hearth up to 32" wide (813mm) a visible 20,000 BTUH open flame burner for ambiance and additional top heat with a large lintel plate/landing shelf for ease of operation. Another 120,000 BTUH gas dual burner provides thermostatically controlled temperatures with independent, operator-controlled top & bottom heat control dampers and micro slides for perfectly balanced results.

IL Forno Classico is designed and engineered to be used either as-is, or finished and trimmed with brass, copper, etc. for an elegant high-tech presentation, or finished DSP style with tile, stone or thin brick applied directly to the oven exterior, or built-in behind a decorative facade of brick, stone or tile for an old-world look.

The IL Forno Classico is available in three sizes to meet your space requirements and may be stacked on our standard deck ovens for increased capacity & production in limited spaces. Designed and engineered to fit through a standard door opening, the IL Forno is assembled on-site thus eliminating the need for heavy equipment and cranes.

Standard features include removable 1 1/2" (38mm) thick hearth baking decks, 300°-650°F (149°-343°C) throttling thermostat, removable front mounted flue for easy access for installation of hearth decks, standard brick lining, front or side mounted controls behind an extra large black powder-coated access panel, rear gas & electrical connections, combination gas control valve, slide-out flame diverters for even heat distribution, fully insulated, spring-balanced doors and heavy duty, 7-gauge steel legs in a variety of heights, with or without casters.

Interior oven frame is constructed of 1/4" (6mm) heavy-duty angle iron, completely welded to form a single unitized section. The oven body and lining are then welded to the oven framework. Oven interiors are manufactured of high-heat resistant 16-gauge aluminized steel.

2 year limited parts & labor warranty.
