### IMPORTANT

1. A combination gas control valve sized for this unit is included.  
Natural gas 7" W.C., propane gas 11" W.C.
2. Gas line connecting to range must be 3/4" or larger for a single oven, 1" or larger for a double stack oven and 1 1/4" or larger for a triple stack oven. If flexible connectors are used, the inside diameter must be at least the same as the iron pipe and rated for the correct gas input.
3. An adequate ventilation system is required for commercial cooking equipment. Information may be obtained by writing to the National Fire Protection Association, Batterymarch Park, Quincy, MA 02289. When writing, refer to NFPA No. 96.
4. These units are manufactured for installation in accordance with ANSZ223.1A (latest edition), National Fuel Gas Code. Copies may be obtained from the American Gas Association, 1515 Wilson Blvd., Arlington, VA 22209.
5. Clearances:
 

	Combustible	Non-comb.
Rear	2 1/2"	2 1/2"
Sides	2 1/2"	2 1/2"
6. This appliance is manufactured for commercial installation only and is not intended for home use.
